

User Manual

1、 Specification:

Rating Voltage: 120Vac 60Hz

Rating Power: 11W

Ambient temperature: $-20^{\circ}\text{C} \sim 50^{\circ}\text{C}$

Ambient humidity: $< 90\%$

2、 Summary:

Light source is High power LED, no UV, infrared and radiation which is typical green illuminant.

Light source is drove by DC current, no flicker, can protect the eyes.

Drive circuit have overheat and short-circuit protection, grantee a long life and high reliable.

With aluminum alloy cover, good heat sink, surface temperature under 60°C .

AC120V input, E26 standard socket, simple and convenient for using.

3、 Suitable for:

Motel, hotel, restaurant, club and house; Market and show-window.

4、 Attention:

Remove and installation must keep the circuit cut off .

Unusable for electronic switch and dimmer.

Unusable for down light which is in hermetic ceiling.

For use only indoor.

5. Note

This device complies with Part 18 of the FCC Rules.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized equipment. Such modifications could void the user's authority to operate the equipment.

This product may cause interference to radio equipment and should not be installed near maritime safety communications equipment or other critical navigation or communication equipment operating frequency between 450KHz~30MHz.
